Slim Rim

True luxury has no limits it extends beyond grand living rooms and fine automobiles to redefine even the most personal spaces. Today's discerning individuals seek refinement in every corner of their lives, including their bathrooms.

OTTAWA Bathware caters to this desire, offering exquisitely crafted bath solutions that blend opulence with innovation. With a vision to bring sophistication to everyday living, OTTAWA is revolutionizing how bathrooms are experienced. Once a space of mere utility, they are now havens of style and relaxation, enriched by OTTAWA's signature elegance.

Affordable **Luxury**

PRECISE QUALITY CONTROL

At Ottawa, our QC team ensures rigorous quality standards. We inspect products for flaws and conduct pressure tests at 1.6 Mpa water and 0.75 Mpa air.

UNMATCHED DESIGNS

We swiftly identify market trends and collaborate closely with manufacturing partners to create goods uniting elegance with cutting-edge tech, unmatched performance, and top-notch quality.

10 YEAR WARRANTY

Thanks to our focus on sustainability and precision, our sanitary ware is built to last for years, offering customers peace of mind with these guarantees.

COST-EFFECTIVE PRICES

Ottawa offers competitive pricing to renowned showrooms, thanks to efficient management and streamlined supply chains. We source the best raw materials at economical rates, ensuring affordability for budget-conscious clients.

Ultimate Rimless

Technology for closets

A closet without a conventional rim is referred to as a rimless closet. In a direct flushing system, water is directed around the smooth interior surface, rather than pouring into the closet through a rim. Rimless closets offer improved hygiene and easier cleaning compared to traditional closets due to their rimless design.

Traditional Design

Ottawa's Design

Technical Attributes

Each product exudes radiance and whiteness.

The finest raw materials are used. R&D has purified, tested, and certified the materials.

With a fully computerized controlled kiln, advanced German technology is used.

For better shine and glossiness, Use eco-friendly natural gas residues.

Production methodology based on ISI and ISO standards.

High-tempered firing and a hygiene-friendly manufacturing process.

Water-saving flushing system with 6/3 liter knobs and anti-bacterial.

Soft closing seat cover is a plus advantage.

Anti Bacterial Glazed Product.

Easy to clean & Maintain Seat Cover.
